

# App Cleaner - Clean Your Mac from Application Leftovers

---

July 24, 2015

Nektony today introduces App Cleaner 2.0, a new cleanup utility developed exclusively for Mac OS X. App Cleaner was developed specifically to help anyone find and delete application service files that occupy not only disk space but may influence on overall performance. The app also can look for leftovers; service files left after the usual deletion by moving files into the Trash. With the help of App Uninstaller, you may also reset all application settings and launch it as the first time.

Odesa, Ukraine - Nektony today is thrilled to announce the release and immediate availability of App Cleaner, a new cleanup freeware utility developed exclusively for Mac OS X. App Cleaner was developed specifically to help anyone find and delete application service files that occupy not only disk space but may influence on overall performance. The app also can look for leftovers or Remains - service files left after usual deletion by moving files into the Trash. With the help of App Uninstaller, you may also reset all application settings and launch it as the first time.

## Categories of files that may be cleaned by App Cleaner:

Application Support - files that an application creates and manages on behalf of the user. Also can include files that contain user data

- Plugins - components that add specific features to another application
- Shared - service files that are shared between users of the OS X
- Library - app-specific data and support files shared between other applications
- Growl - components that support notifications by Growl notification system in the application
- Caches - data that can be regenerated if needed
- Containers - home directories for any sandboxed applications
- Preferences - the user preferences files for the application
- Logs - log files for the console and specific system services
- As well as Cookies, Crash Reports, Preference Panes, Login Items, Dock Icon

The app also has specific features for a better user experience. You may add applications to Skip Lists, notification option if the application was removed and deleted not properly, select the size of applications to be scanned, set of shortcuts, and more. Even though there are so many features, App Cleaner is still is a free app.
