

# Collaborate Visio Drawings effectively with VSD Viewer for Mac 4.0

---

October 02, 2013

Nektony today announces VSD Viewer 4.0 for Mac OS X. Ideal for anyone who uses Visio drawings as a reference, VSD Viewer allows Mac users to open VSD files created with Visio 2000 - 2013, a file extension for a vector graphics format developed and owned by MS Visio. Opening a Visio drawing on Mac with VSD Viewer is as simple as drag and drop the file to its application window. The new version extends VSD Viewer for Mac with the ability to display the shape data of the MS Visio objects.

Odesa, Ukraine - Today Nektony released a new version of VSD Viewer for Mac. The new version extends VSD Viewer for Mac with the ability to display the shape data of the MS Visio objects. The ability to view the shape data is often required by advanced MS Visio users.

The Shape Data option of MS Visio objects is often used by professional MS Visio users for adding properties and data to the ordinary Visio objects. VSD Viewer can display the shape data on several objects simultaneously.

Another important addition is available to evaluate the VSD Viewer for Mac before purchasing it since version 4.0. The no-charged time-limited evaluating version of VSD Viewer for Mac is available for download from Nektony's site.

Also, the 4.0 version comes with a set of improvements, designed on requirements of experienced users of VSD Viewer for Mac: possibility to print document instantly - from the application directly without converting to PDF, guidelines displaying, and a number of general performance improvements.

Nektony understands how is important to be part of the business community that is strongly committed to Apple technologies and also seeking to operate in an efficient and effective manner. VSD Viewer for Mac meets the needs of professional Mac users to open Microsoft Visio

2000 - 2013 drawings (.vsd, .vdx, .vsdx) in compliance with security avoiding the use of an Internet-conversion, by the means of embedded off- line scripts.

## System Requirements:

\* Mac OS X 10.8 or later

\* 4.4 MB

## Pricing and Availability:

VSD Viewer for Mac 4.0 is priced at \$14.99 USD and is available worldwide through the Mac App Store in the Business category.
