

# NEW RELEASE

## MACCLEANER PRO VERSION 3.0

**Odesa, Ukraine - September 23, 2022**

Nektony announces MacCleaner Pro v.3.0, - a professional macOS cleaning program designed for users who face low disk space and slow system performance. MacCleaner Pro can safely clean up and speed up your Mac with a few clicks. It allows you to find and remove useless junk files. Version 3.0 brought a totally new design, new cleanup features, and updated PRO tools.

Nektony is proud to announce the release of MacCleaner Pro v.3.0. It is a Mac cleaning and optimizing utility that allows you to easily find and remove all junk files, like cache, logs, mail attachments, language files, installations, duplicate files, and more. It allows you to free up RAM with one click, disable startup programs, remove unneeded extensions, reindex Spotlight or Mail, analyze disk space usage, uninstall unneeded apps without leaving their remains, hide files and find hidden items on your Mac. The bundle of apps helps you quickly get rid of all unneeded digital staff, recover significant disk space, and, as a result, enjoy a smoothly-working Mac computer as a new one.

Unlike other cleaning apps for macOS, MacCleaner Pro is a bundle of professional tools that allow you to perform a deep Mac cleanup. With the Pro tools, you can find and remove duplicate files, similar photos, similar music, merge your folders and organize your files. With the other tools, you can completely uninstall apps, find the leftovers of already removed apps, operate hidden files, and monitor memory usage by apps.

### MacCleaner Pro features:

- Remove cache files and other junk to free up disk space.
- Completely uninstall applications with all their leftovers.
- Manage Mac extensions and Internet plugins.
- Analyze your disk space usage and find the bulkiest content.
- Find and remove duplicate files and folders, similar photos and even merge folders.
- Monitor memory usage and clear inactive RAM to speed up your Mac's performance.
- Find and manage hidden files.

## Pricing and Availability:

MacCleaner Pro is available on Nektony's website. A free trial allows using all the features without any limitations. The developers provide different pricing options, including subscription plans and one-time purchases.

- A yearly subscription costs \$29.95 (USD)
- One-time purchase costs \$74.95 (USD)

## System requirements:

- macOS 10.11 or later
- 64-bit processor
